

Task III – MySQL

Connect to MySQL server with a SQL client using following credentials:

```
host: pop703qatrial.csps2cqmnya4.eu-west-1.rds.amazonaws.com  
username: marsapplicant  
password: Mars@trivago2018  
Default Schema: marstestdb
```

Write the queries you would use to answer the following questions:

- Which department pays the highest salary currently and who is the department manager?
- How many employees are working in Human Resources Department currently?
- Who is currently the oldest employee of the company?
- What is the current average salary of Marketing Department?
- Who is currently the newest employee of the company?
